

iPhone/iPad Mail Setup Guide

This is an introductory guide on how to setup iPhone/iPad/iPod with a new email service. By following these basic steps you will be able to quickly setup your Apple device with your Highway 1 (Global Dial or EON) hosted email. Please note that you'll need to contact us to create the new email address. You can then use your Apple device to access it.

1. Tap the "Settings" ICON
2. Tap "Mail, Contacts, Calendars" Menu option
3. Tap "Add Account"
4. Tap "Other"

5. Tap "Add Mail Account"
6. Name: Your Name
7. Address: Your Email Address
8. Password: Your Password
9. Tap "Next" Button
10. Select IMAP (if you want your mail to be stored on the server) or POP if you want download and delete your mail off the server
For Incoming Mail Server
11. **Host Name:** mail.highway1.com.au (Highway 1/EON/APIIX/Nerdnet Customers) or mail.globaldial.com
12. **User Name:** Your FULL Email address
For Outgoing Mail Server
13. **Host Name:** smtp.highway1.com.au (Highway 1/EON/ APIIX/Nerdnet Customers) or mail.globaldial.com
14. **User Name:** Your FULL Email address
15. **Password:** Your Supplied Password
16. **Use SSL:** OFF (Talk to our service desk if you want to configure this to be on)
17. Tap "Next"
18. The Phone will VERIFY your settings.
19. If the settings are correct your mail will connect and download. To view Click the Home button and then tap the mail icon.
20. If you are unable to connect please contact our service desk.
